HE proposal pre-screening for Romanian applicants

(Pillar 2, WIDERA)

If you plan to write a project proposal and submit it to one of the calls under Pillar II (Global Challenges and European Industrial Competitiveness) or Widening Participation and Strengthening the European Research Area (including ERA Fellowships) of the Horizon Europe programme, you can benefit of pre-screening of your draft proposal.

You will be matched with an independent expert from the portal wideraexperts.eu who will give you recommendations on how to improve the quality of your proposal and increase your chances of receiving the funding. Your proposal is pre-screened by only one independent external expert (NB. this expert is not/will not be involved in the EC evaluation of your proposal).

Please note that the proposal needs to be as close to a final version as possible and needs to be written in English. **The proposal must be submitted no later than 15 calendar days before the call deadline.**

Living guidelines on the RESPONSIBLE USE OF GENERATIVE AI IN RESEARCH

Orientări privind utilizarea responsabilă a IA generative în cercetare

Comisia Europeană împreună cu țările din Spațiul European de Cercetare și cu părțile interesate au elaborat un set de [orientări](#) pentru sprijinirea comunității europene de cercetare în utilizarea responsabilă a inteligenței artificiale generative (IA). IA transformă cercetarea, eficientizează activitatea științifică și accelerează procesul de cunoaștere. În timp ce instrumentele IA generative oferă viteză și confort în producerea de text, imagini și cod, cercetătorii trebuie să fie atenți și la limitările tehnologiei, inclusiv plagiatul, dezvoltarea de informații sensibile sau prejudicată în modelele utilizate.

Principalele [concluzii](#) ale ghidului sunt următoarele:

- Cercetătorii sunt reticenti la utilizarea instrumentelor IA generative în activități sensibile, cum ar fi evaluările și pot utiliza IA generativă respectând confidențialitatea și drepturile de proprietate intelectuală.
- Organizațiile de cercetare ar trebui să faciliteze utilizarea responsabilă a IA generative și să monitorizeze activ modul în care aceste instrumente sunt dezvoltate și utilizate în cadrul organizațiilor lor.

Planul strategic Orizont Europa 2025-2027 adoptat

În 20 martie 2024, Comisia Europeană a adoptat cel de-al doilea Plan strategic pentru Orizont Europa. Acesta stabilește **trei orientări strategice cheie** pentru finanțarea cercetării și inovării de către UE pentru ultimii trei ani ai programului (2025-2027):

- **Tranziție verde**
- **Tranziție digitală**
- **O Europă mai rezilientă, competitivă, inclusivă și democratică**

Aceste orientări strategice cheie sunt principiile directoare pentru Orizont Europa și vor fi implementate prin programele de lucru. În următoarele luni, principalul Program de lucru Orizont Europa 2025 va fi dezvoltat urmând aceste orientări.

Planul recent adoptat are următoarele principii generale: autonomie strategică deschisă și asigurarea rolului principal al Europei în dezvoltarea și implementarea tehnologiilor critice.

În plus, Planul strategic:

- identifică 9 noi parteneriate europene cofinanțate și co-programate, și anume: Brain Health, Forests and Forestry for a Sustainable Europe, Health and Innovation for a Sustainable Europe, etc.
